

POPFIX

Last updated: December 2007

Popfix, version 1.09a, \$25 to register.

The download file name is popfix.exe, file size is 1.03 MB

Two passes with the default presets didn't do any good on sdemo1. The output sounded just like the input so I didn't try anything else.

I went to the *Popfix* website to check the version and price. Still the same, but the program just doesn't seem to be useful.
